FOR RENT

Phil and Kim are back in Florida after a very hectic 17 months of travel and refits.

Three boats were completed in this period: The 10 year class survey on "M.Y. Marlina" was finalised just in time for her to change owners. This survey took place in both Bradford's Grand Bahamas with further repairs at Broward's yard in Ft Lauderdale;

"Peaceful Fish", the vessel Yachtprojects oversaw the conversion of in 2006-07 had the crane replaced and an upgrade to the air conditioning system completed in their facility in Green Cove Springs, Florida, USA in the middle of 2008.

"MY Senses", their long term project, underwent major engine room work in February and March. Went off to do owners charters in Alaska and returned to Knight and Carver's facility in San Diego to complete her 10 year dry docking and class certificate renewal.

Take the keys and drive away

"Senses" interior and Galley were rebuilt at this time in keeping with the rest of her interior

She departed on time in late February to do yet another world cruise with the owner.

Yachtprojects are happy to report that the new joint venture project with Clean Marine Systems is breaking ground very quickly. The product line is expanding as we bring new lines forward but all parties in the Marine Industry will find a benefit from at least one of them. I invite you to have a look at the pages of our web site for initial information and then give Phil a call.

UK clients will be serviced by our office there with full back up and technical support from the USA.
